

COMPANY OVERVIEW

Barraza Industries LLC is a Hispanic-owned Florida construction contractor founded by Hugo Barraza in 2019 and headquartered in Hialeah. We self-perform demolition, site preparation, asphalt and concrete, luxury pavers, debris removal, and hauling across Miami-Dade and Broward counties. Every service is delivered by our own crews with our own equipment under a single project manager and a single accountability. We serve homeowners, developers, general contractors, property managers, resorts, HOAs, and public agencies. Our operating standard was carried over from luxury automotive: accurate numbers, clean execution, respect for the client's time.
